

LIMITLESS HOOPS - EVENTS & SCHEDULING LOGIC

This document outlines the types of events hosted by Limitless Hoops and the business logic governing access based on Membership Tiers.

TIER-BASED ACCESS RULES

Access to events is strictly gated by the user's active Membership Tier. The platform automatically enforces these access rules when a user attempts to view or book an event.

1. Recreation Tier Events

Users on the Recreation tier (or higher) have access to:

- **Games**
- **M/W/F Skill Workouts**
- **Tue/Thu Practices**
- **Sunday Shooting**
- **Saturday Open Gym**

2. Seasonal Tier Events

Users on the Seasonal tier (or higher) have access to everything in Recreation, plus:

- **Skill Clinics**
- **PnR (Pick and Roll) Workshops**

3. Limitless Tier Events

Users on the Limitless tier (or Volunteer tier) have full access to all events, including:

- **Winter Camp**
 - **Summer Camp**
 - **Combines**
-

EVENT CATEGORIES & DEFINITIONS

Workouts & Open Play (High Frequency)

- **Shooting Workouts (Sun):** Specialized shooting drills.
- **Skill Workouts (M/W/F):** General skill development.
- **Team Practices (Tue/Thu):** Team strategy and organized practice.
- **Open Gym (Sat):** Unstructured playtime.

Specialized Training (Clinics & Workshops)

- **Skill Clinics:** Specialized clinics (Seasonal/Limitless).
- **Pick n Roll Workshops:** Tactical workshops focusing on the PnR (Seasonal/Limitless).

Special Events & Camps

- **Games:** Local league games or scrimmages (All tiers).

- **Combines:** Ability and agility assessments (Limitless only).
 - **Summer / Winter Camps:** Multi-day seasonal intensive camps (Limitless only).
-

TECHNICAL IMPLICATIONS FOR EVENT ENGINE

- **Tier Gating (Hard Requirement):** The backend must check the user's current active subscription tier against the event's required tier before allowing a booking.
- **UI Discoverability:** Events that a user does not have access to (e.g., a Recreation user viewing a Combine) should still be visible on the calendar but marked as "Upgrade Required" to incentivize tier upgrades.
