

LIMITLESS HOOPS TIERS & BILLING LOGIC

This document serves as the source of truth for Membership Tiers, Pricing, and the core Business/Billing Logic for the application.

CORE BILLING PARADIGM: "CLUB DUES" (STRICT CONTRACTS)

The billing architecture is built on a **Financed Contract / Club Dues** model, rather than a standard month-to-month SaaS model.

- Users are purchasing a fixed-term contract (2 months, 4 months, or 1 year).
- Installment options exist solely as a convenience to finance the total cost of the tier. They do *not* represent month-to-month subscriptions.
- Because payments are front-loaded (e.g., paying for 12 months in 4 months), the application strictly enforces the rules below to prevent users from gaming the system and to protect the club's upfront overhead costs.

General Billing Rules

1. **Grace Periods & Repossession:** If an installment payment fails, Stripe will automatically retry the card for **7 days** (Dunning). If the payment still fails after the 7-day grace period, the subscription is canceled by Stripe. The application will listen for this cancellation webhook and **immediately revoke gym access and forfeit the user's roster spot**. No further balance is owed or collected after repossession (Clean Break).
2. **Cancellations (Clean Break):** If a user voluntarily cancels their installment plan in the app, their access is revoked immediately and **all future automated charges are canceled**. They owe nothing further for the remaining contract balance. The app will warn them: *"Canceling your payment plan will forfeit your roster spot and gym access immediately. Past payments are non-refundable per club policy, but you will not be billed for any remaining installments."*
3. **No Pro-Rated Refunds:** Payments already made are non-refundable. They cover the club's upfront overhead. Users do not get "fractional time" if they stop paying early.
4. **Upgrades:** Users can upgrade mid-contract. The system will calculate the remaining balance: $(\text{Cost of New Tier}) - (\text{Amount Already Paid})$. The user is then billed for this difference.
5. **Waitlist Priority:** If not on a recurring charge, a waitlist member may immediately take the user's roster spot when the term ends.

MEMBERSHIP TIERS (PRICING & AMENITIES)

1. Recreation

- **Term:** 2 Months
- **Option 1 (Pay in Full):** \$500
- **Option 2 (Installments):** \$100 x 5 Weekly Installments
- **Amenities Included:**
 - Games
 - M/W/F Skill Workouts
 - Tue/Thu Practices
 - Sunday Shooting

- Saturday Open Gym

2. Seasonal

- **Term:** 4 Months
- **Option 1 (Pay in Full):** \$1,000
- **Option 2 (Installments):** \$500 x 2 Monthly Installments
- **Amenities Included:**
 - *All Recreation amenities plus:*
 - Skill Clinics
 - PnR Workshops

3. Limitless

- **Term:** 1 Year
- **Option 1 (Pay in Full):** \$3,000
- **Option 2 (Installments):** \$750 x 4 Monthly Installments
- **Amenities Included:**
 - *All Seasonal amenities plus:*
 - Winter Camp
 - Summer Camp
 - Combines

4. Volunteer

- **Term:** 2 Months (Resets every 2 months)
- **Price:** \$200 – \$500 (Exact amount varies)
- **Billing Type:** One-time refundable deposit
- **Rules & Logistics:**
 - Through 12th grade.
 - 4 spots per grade.
 - First come, first served.
 - Requires 90 minutes of volunteering per week.
 - Deposit is refunded at the end of the 2 months, or rolled over if they decide to continue volunteering for another term.
- **Amenities Included:**
 - *Full Limitless Access* (Access to all events, clinics, and camps during the 2-month term).

TECHNICAL IMPLEMENTATION DETAILS

- **Source of Truth:** Stripe handles all billing schedules and recurring logic.
- **Automated Revocation:** The backend relies entirely on Stripe Webhooks (`customer.subscription.deleted` or `invoice.payment_failed` after the dunning period) to revoke access. There is no custom "proration" or "fractional time" math handled by the backend.
- **Upgrades:** Upgrades require generating a new Stripe invoice/checkout for the calculated difference in tier costs.
